## Profile

Final-year Computer Science student with a proven ability to build and ship full-stack web applications independently. Skilled in Python, Django, FastAPI, and React with two deployed projects that solved real problems and delivered measurable results. Looking for an entry-level Software Developer or Full-Stack Developer role to contribute and grow. .

## Technical Skills

**Languages:** Python, C, SQL

**Frontend:** React.js, Tailwindcss, HTML, CSS3 Responsive Web Design

**Backend:** FastAPI, Django, REST APIs, CRUD, JSON Handling, Authentication (JWT)

**Databases:** MySQL, SQLite,

**General:** Data Structures & Algorithms, OOPs, OS, DBMS, SDLC

**Developer Tools:** Git, GitHub, VS Code, Linux, Docker (Basics), AWS (Basics)

## Experience

**IBM SkillsBuild |**

Gorakhpur, India

**Frontend Developer Intern**

Aug 2025 – Sept 2025

- Built a responsive web application using HTML5, CSS3, and JavaScript (ES6+), improving UI efficiency by 25%. .
- Implemented LocalStorage-based data persistence, reducing manual re-entry effort by 30%.
- Developed form validation logic to reduce input errors by 20% and improve data integrity. .
- Enhanced user experience through responsive design and optimized client-side functionality. .

## Projects

**Intelligent Hiring Gateway** [🔗](#) | React.js, FAST API, Gemini API, SQLite

March 2026 – April 2026

- Developed a full-stack AI-powered recruitment platform using React, FastAPI, REST APIs, and SQLite for candidate-job matching.
- Built an automated resume screening and ATS scoring system with PDF parsing and text extraction, reducing manual screening effort by 40%.
- Integrated Google Gemini API for skill matching, candidate ranking, and match-score generation.
- Designed a responsive recruiter-candidate dashboard with job posting, candidate matching, and SQLite-based data management.

**Resume Builder Web Application** [🔗](#) | Python, Flask, HTML, CSS, FPDF

Oct 2025 – Oct 2024

- Developed a dynamic web application for generating professional resumes in PDF format through automated template-based processing.
- Automated resume creation workflow, reducing manual formatting effort by 50%. .
- Implemented secure file handling and optimized server-side processing, improving performance by 30%.
- Designed a responsive user-friendly interface, enhancing usability and accessibility.

## Education

**Institute of Technology and Management**

Gorakhpur

B.Tech in Computer Science and Engineering

Aug 2022 – May 2026

## Awards and Certification

- **IBM:** Web development Certificate, Python for Data science Certificate
- **Cisco:** Networking Basics, Junior Cyber security analyst
- **Samsung Innovation Campus:** Participated in Samsung Innovation Campus Hackathon, collaborating on problem-solving and innovative solution development. .
